Health Australia Party

...a healthy choice

We believe that a healthy Australia must be built on the following five fundamentals:

HEALTHY PEOPLE

Build a health creation system, not a disease management system, based upon choice and access to safe and effective medicine and procedures. Remove the influence of multinational corporations and base health policy on proven, independent research.

HEALTHY ECONOMY

Ensure that big business, big unions, and paperwork do not stifle free enterprise. Genuine tax reform based upon fairness for all. Involve government where needed for the good of the country and its people.

HEALTHY ENVIRONMENT

Place a premium on Australia being 'clean and green'. Support sustainable energy and agriculture, and ensure development adheres to these values. Defend endangered species and habitats, and recognise that a Healthy Environment is essential for all.

HEALTHY DEMOCRACY

Expose the influence of vested interests on media and policy. Ensure transparency in government decision making. Introduce meaningful whistleblower legislation and protect freedom of speech.

HEALTHY SOCIETY

Encourage everyone to participate in the national discussion. Affordable education for all, and a compassionate and fair approach to social problems. Make us once again proud to say we are Australians on the global stage.

Health Australia Party
...a healthy choice

Don't leave the defence of your freedom to choose to others - become involved.
