

JOIN THE DEFENCE OF NATURAL MEDICINE IN AUSTRALIA

All forms of natural medicine are under attack in Australia. Many other individual rights are also threatened. Gaining representation on the floor of the Senate will make a significant difference by ensuring natural medicines and personal freedoms are represented accurately and fairly at a Federal level, where key decisions are made regarding their ongoing existence or demise.

In 2016 we are going to do everything we can to ensure this representation happens, and we need your help.

What You Can Do to Help

- ✂ Go to www.healthaustraliaparty.com.au and learn more about who we are
- ✂ Become a Member or friend of HAP
- ✂ Tell your friends, family and/or patients about HAP and encourage them to become a Member or friend
